

Code-Layout, Readability and Reusability

Date	01-July-2026
Team ID	SWTID-2026-4523
Project Name	Credit Card Approval Prediction
Maximum Marks	5 Marks

Code-Layout, Readability and Reusability:

This document evaluates the quality of the project's code based on its structure, readability, and reusability. Well-organized code with meaningful naming conventions, proper comments, and modular design improves maintainability, scalability, and future enhancements.

Code Layout Checklist:

S.NO	Code Quality Parameter	Description	Followed	Remarks
1	Consistent Indentation	Uniform spacing and indentation are maintained throughout the code.	Yes	Improves readability and consistency.
2	Proper File Structure	Project files are organized into logical folders and modules.	Yes	HTML, CSS, Python, and model files are stored separately.
3	Meaningful Variable Name	Variables use descriptive names that indicate their purpose.	Yes	Easy to understand and maintain
4	Function / Method Names	Functions have descriptive and meaningful names.	Yes	Clearly represents each function's task.
5	Code Comments	Important sections include comments for better understanding.	Yes	Improves code readability.
6	Modular Design	Code is divided into reusable functions and modules.	Yes	Makes future modifications easier.
7	No Redundant Code	Duplicate and unused code has been removed.	Yes	Improves maintainability and efficiency.

8	Error Handling	Exceptions and invalid inputs are handled appropriately.	Yes	Prevents application crashes and improves user experience.
---	----------------	--	-----	--

Reusable Components / Modules:

S.NO	Component / Module Name	Language / Technology	Where Reused	Reusability Level
1	Login Authentication	Python, Flask	User Login	High
2	Data Preprocessing Module	Python, Pandas	Data Cleaning & Prediction	High
3	Machine Learning Prediction Module	Scikit-learn	Credit Card Prediction	High
4	HTML Form	HTML, CSS	Applicant Information Page	Medium
5	Prediction Result Page	HTML, Flask	Displaying Prediction Results	Medium

Overall Code Quality Assessment:

Aspect	Rating (1–5)	Comments
Code Layout & Structure	5	Well-organized project structure with separate frontend, backend, and model files.
Readability	5	Code is easy to understand with meaningful names and consistent formatting.
Reusability	5	Functions and modules can be reused in future projects.
Documentation / Comments	4	Important sections are documented with comments.
Overall Score	4.75/5	The project follows good coding practices and is maintainable.
