Customer Journey Map

This customer journey map illustrates the complete experience of a credit card applicant throughout the approval process. It captures the customer's actions, interactions, thoughts, and emotions at each stage while identifying the responsible stakeholders and opportunities for improvement. The map helps design a smoother, faster, and more transparent credit card approval experience.

Journey Phase	Stage 1	Stage 2	Stage 3
Actions	Fills out the online credit card application. Uploads required documents.	Waits for application verification. Responds if additional information is requested	Receives the approval or rejection decision. Activates the card if approved.
Touch points	Bank website or mobile app. Application portal.	Customer support. Verification system. Email or SMS updates.	Approval notification. Bank branch or courier service.
Customer Thought	"Will I qualify for the credit card?" "Is my information correct?"	"How long will the approval take?" "I hope there are no issues."	"I'm glad it was approved." or "Why was my application rejected?"
Customer Feeling	Interested. Hopeful.	Anxious. Curious	Happy if approved. Disappointed if rejected.
Process Ownership	Customer	Bank Verification Team	Bank Approval Team
Opportunities	Simplify the application form.	Speed up document verification.	Explain approval/rejection

	Provide clear eligibility criteria.	Provide real-time status updates.	reasons. Reduce processing time.
