

Project Demo Planning

Date	1 July 2026
Team ID	SWTID-2026-4523
Project Name	Credit Card Approval Prediction
Maximum Marks	1 Mark

Project Demo Planning:

A well-structured demo plan ensures that the team presents the project effectively, covering all key aspects in a clear and organized manner. This document outlines the plan for demonstrating the project, including the flow of the demo, key features to highlight, and responsibilities of each team member.

S.No	Demo Section	Description	Duration (mins)	Responsible Member
1	Introduction	Introduce the project, objectives, and team members.	2	P. Kavya
2	Problem Statement	Explain the challenges in manually approving credit card applications and the need for automation.	2	P. Kavya
3	Solution Overview	Explain the technologies used (Python, Flask, HTML, CSS, Machine Learning) and the system architecture.	3	S.Shahidha Bhanu
4	Live Feature Demonstration	Demonstrate entering applicant details and show the prediction result (Approved/Rejected).	5	S.Shahidha Bhanu
5	Project Features & Testing	Explain the application's features, testing process, and prediction accuracy.	2	P. Kavya
6	Conclusion & Future Enhancements	Summarize the project and discuss possible future improvements.	1	S.Shahidha Bhanu

Demo Flow Summary:

Step	Activity	Notes
1	Introduction & Problem Statement	Briefly introduce the project and explain the objective of predicting credit card approval.
2	Solution Overview	Describe the technologies used, workflow, and machine learning model.
3	Live Feature Demonstration	Show the home page, enter applicant details, generate the prediction, and explain the output.
4	Q&A Session	Answer questions related to the project, dataset, machine learning model, and implementation.
